A Touch of Red, A Lot of Character

Active Visual Touches:

The addition of red accents throughout the design gives the car a sporty yet sophisticated character. Red stripes have been added to both the front and side doors, while the interior and front bumper are also highlighted with red. These enhancements are available on both the Comfort and Luxury trims.

Beauty That Makes You Feel Alive

The sunroof is available on both the Luxury and Flagship trims, offering a driving experience that's free-spirited and reflects the owner's personality. The luxurious interior features elegant leather seats and a leather-wrapped steering wheel that blends sporty and sophisticated aesthetics.

The Flagship trim stands out with its glossy 18-inch two-tone wheels and red exterior accents, including side doors and the rear bumper

Technology Combined with Elegance

The Comfort trim is equipped with a movable sun visor and a vanity mirror with light for added convenience.

The Luxury trim enhances the driving experience with a 6-way adjustable power seat for the driver and a 4-way adjustable steering wheel, along with a one-touch four-door window system.

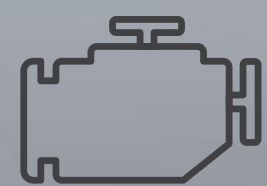

The Flagship trim is upgraded with a reading light for the second row and ambient lighting, adding an extra touch of sophistication
